MATACS | Proposal Triage Process

Evidence-grounded evaluation with deterministic scoring and human review

1. Upload and parse

PDF / DOCX proposals
Text extraction + page refs

2. AI extraction

Structured fields + evidence
Unknowns remain null

3. Rule-based checks

Mandatory eligibility gates
No inference from missing proof

4. Deterministic scoring

Weighted criteria + formulas
Only eligible, scoreable bids

HUMAN CHECKPOINT A - Evidence review

Review extracted claims, source pages, ambiguous or conflicting evidence

HUMAN CHECKPOINT B - Decision review

Resolve flags, approve ranking, document rationale before release

RANKED

Eligible + complete evidence
Numeric score and rank

FLAGGED

Potentially eligible; key detail
missing or needs clarification

INELIGIBLE

Mandatory requirement failed
or bidder qualification unproven

AI assists with extraction and evidence organization; mandatory checks and scoring remain explicit, reproducible rules.
